## CYCLIST PLEDGE FORM

This year's beneficiaries are:

Rescue is not an easy job for anyone and finding the right homes for the many misunderstood and neglected and abused animals, is a constant challenge. Taking responsibility of these abandoned dogs is expensive and all of these rescue organisations rely solely on fundraising initiatives to bring in the much needed funds, to do what they do on a daily basis.

All animals that come into their care are rehabilitated, housed, fed, vaccinated, sterilised and micro-chipped before going to their suitable new homes. As you can imagine, these costs running into the thousands per animals and all assistance relies on the kind help of volunteers.

Many of the expenses for this event are large and by joining forces, even more money can be raised and any expenses can be split. This is where Barking Army SA is getting involved, by handling all the admin for this fundraiser as the volunteers of these organisations have their hands full in looking after the many dogs in their care. We aim to make this a valuable and exciting event for riders and rescue organisations!

We are looking for enthusiastic riders to "ride for a purpose" and cycle for Husky Rescue, Woodrock, PETS or Paws R Us.

In 2015, Barking Army, raised R365 000, in 2016, we raised R265 000 & in 2017 we raised R241 570.

***We are asking each cyclist to raise R2200 for your selected charity.***

### What's in it for you?

Dedicated early start time, if required (great for first-time riders). Start times can only be communicated upon confirmation from the race organisers.

Group training rides in the Cradle

Updates on information & collection of race packs

Cycling jersey of your favourite organisation

Hospitality tent at the finish including drinks, food & a hearty welcome over the finish line!

Queries can be direct to info@barkingarmysa.com

*This fundraiser is administered on behalf of various welfare organisations*
